

Qestion01

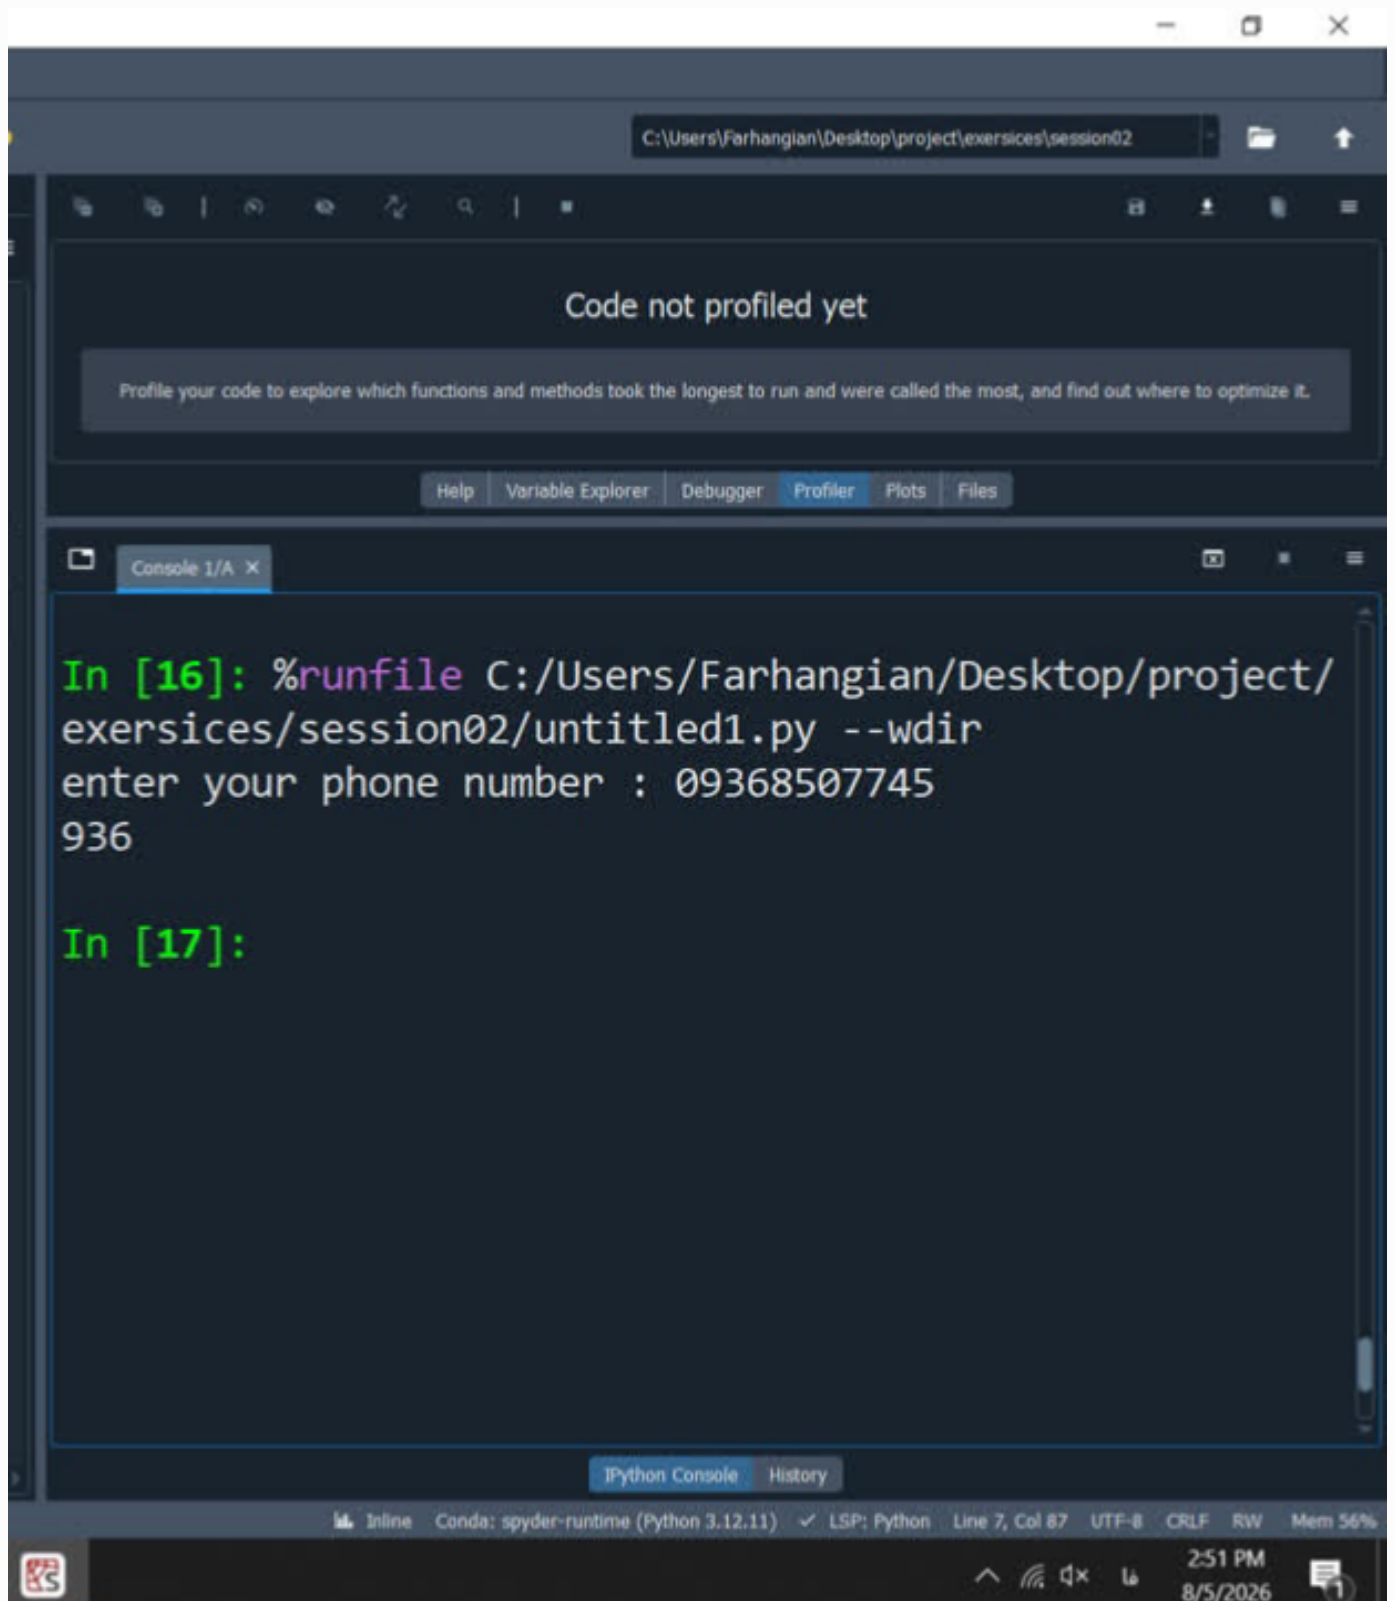

The screenshot shows the Spyder Python IDE interface. At the top, a file explorer displays the path `C:\Users\Farhangian\Desktop\project\exersices\session02`. Below this, a message states "Code not profiled yet" with a subtext: "Profile your code to explore which functions and methods took the longest to run and were called the most, and find out where to optimize it." A toolbar contains buttons for "Help", "Variable Explorer", "Debugger", "Profiler", "Plots", and "Files". The main area is a console window titled "Console 1/A" showing the execution of a Python script. The script uses `%runfile` to execute `C:/Users/Farhangian/Desktop/project/exersices/session02/question01.py` with the `--wdir` flag. The script prompts for a name and national code, which are entered as `sara6661085402` and `6661085402` respectively. The console also shows the prompt `In [7]:`. At the bottom, a status bar indicates the current environment is "Conda: spyder-runtime (Python 3.12.11)", the editor is in "Inline" mode, and the cursor is at "Line 8, Col 12". The system tray shows the time as 1:48 PM on 8/5/2026.

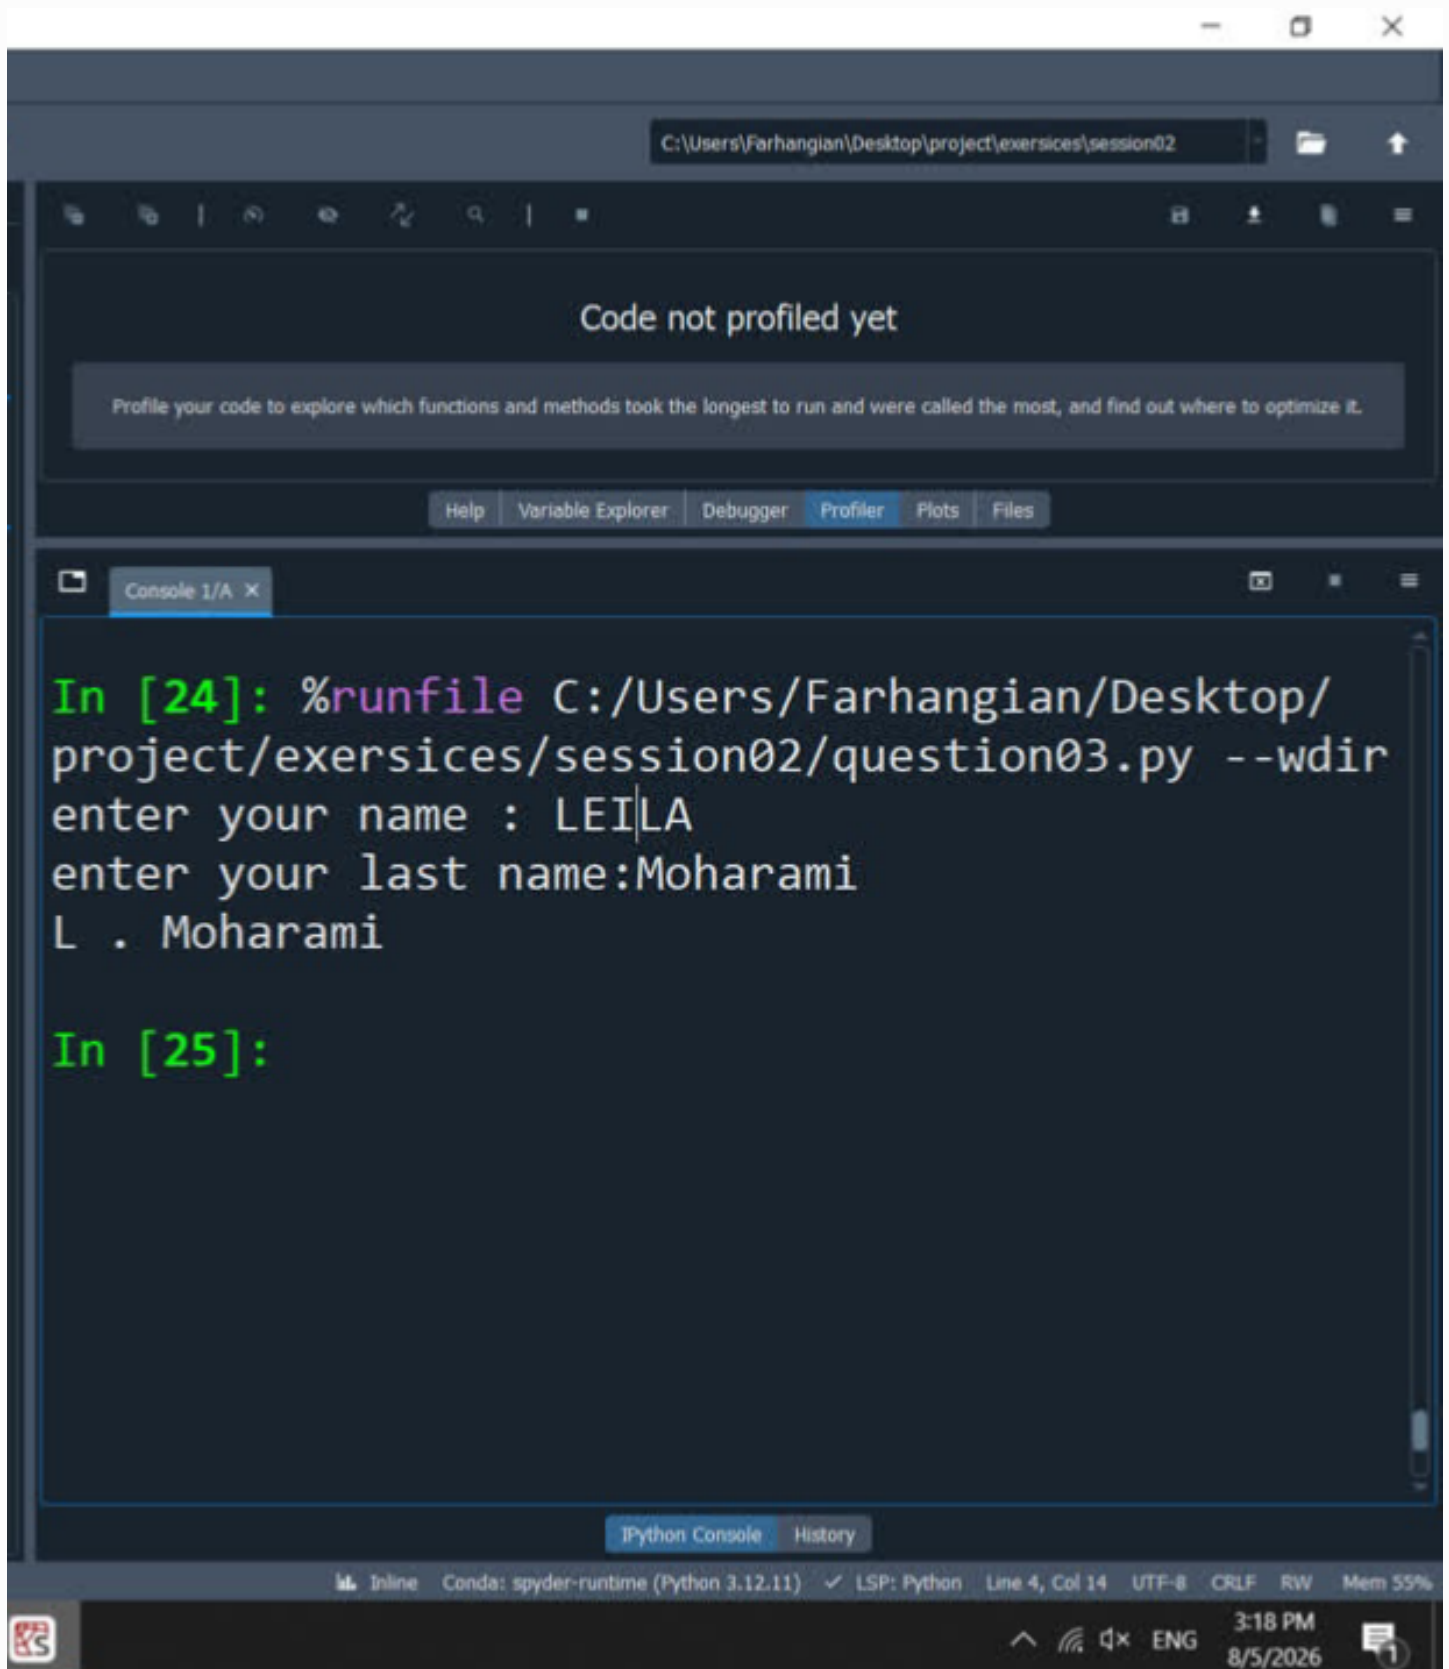

```
In [6]: %runfile C:/Users/Farhangian/Desktop/project/
exersices/session02/question01.py --wdir
enter your name and your national code :
sara6661085402
6661085402

In [7]:
```

Question02

Question03

The screenshot shows the Spyder IDE interface. The top toolbar includes icons for file operations and a 'Run' button. The main editor area displays the message 'Code not profiled yet' and a description of profiling. Below the editor is a toolbar with 'Help', 'Variable Explorer', 'Debugger', 'Profiler', 'Plots', and 'Files'. The bottom panel is the 'IPython Console', which shows the execution of a command to run a Python file. The command is `%runfile C:/Users/Farhangian/Desktop/project/exersices/session02/question03.py --wdir`. The console output shows the program prompting for a name and last name, with the user entering 'LEILA' and 'Moharami' respectively. The status bar at the bottom indicates the current environment is 'Conda: spyder-runtime (Python 3.12.11)' and shows the current line and column in the file.

```
C:\Users\Farhangian\Desktop\project\exersices\session02
```

Code not profiled yet

Profile your code to explore which functions and methods took the longest to run and were called the most, and find out where to optimize it.

Question 04

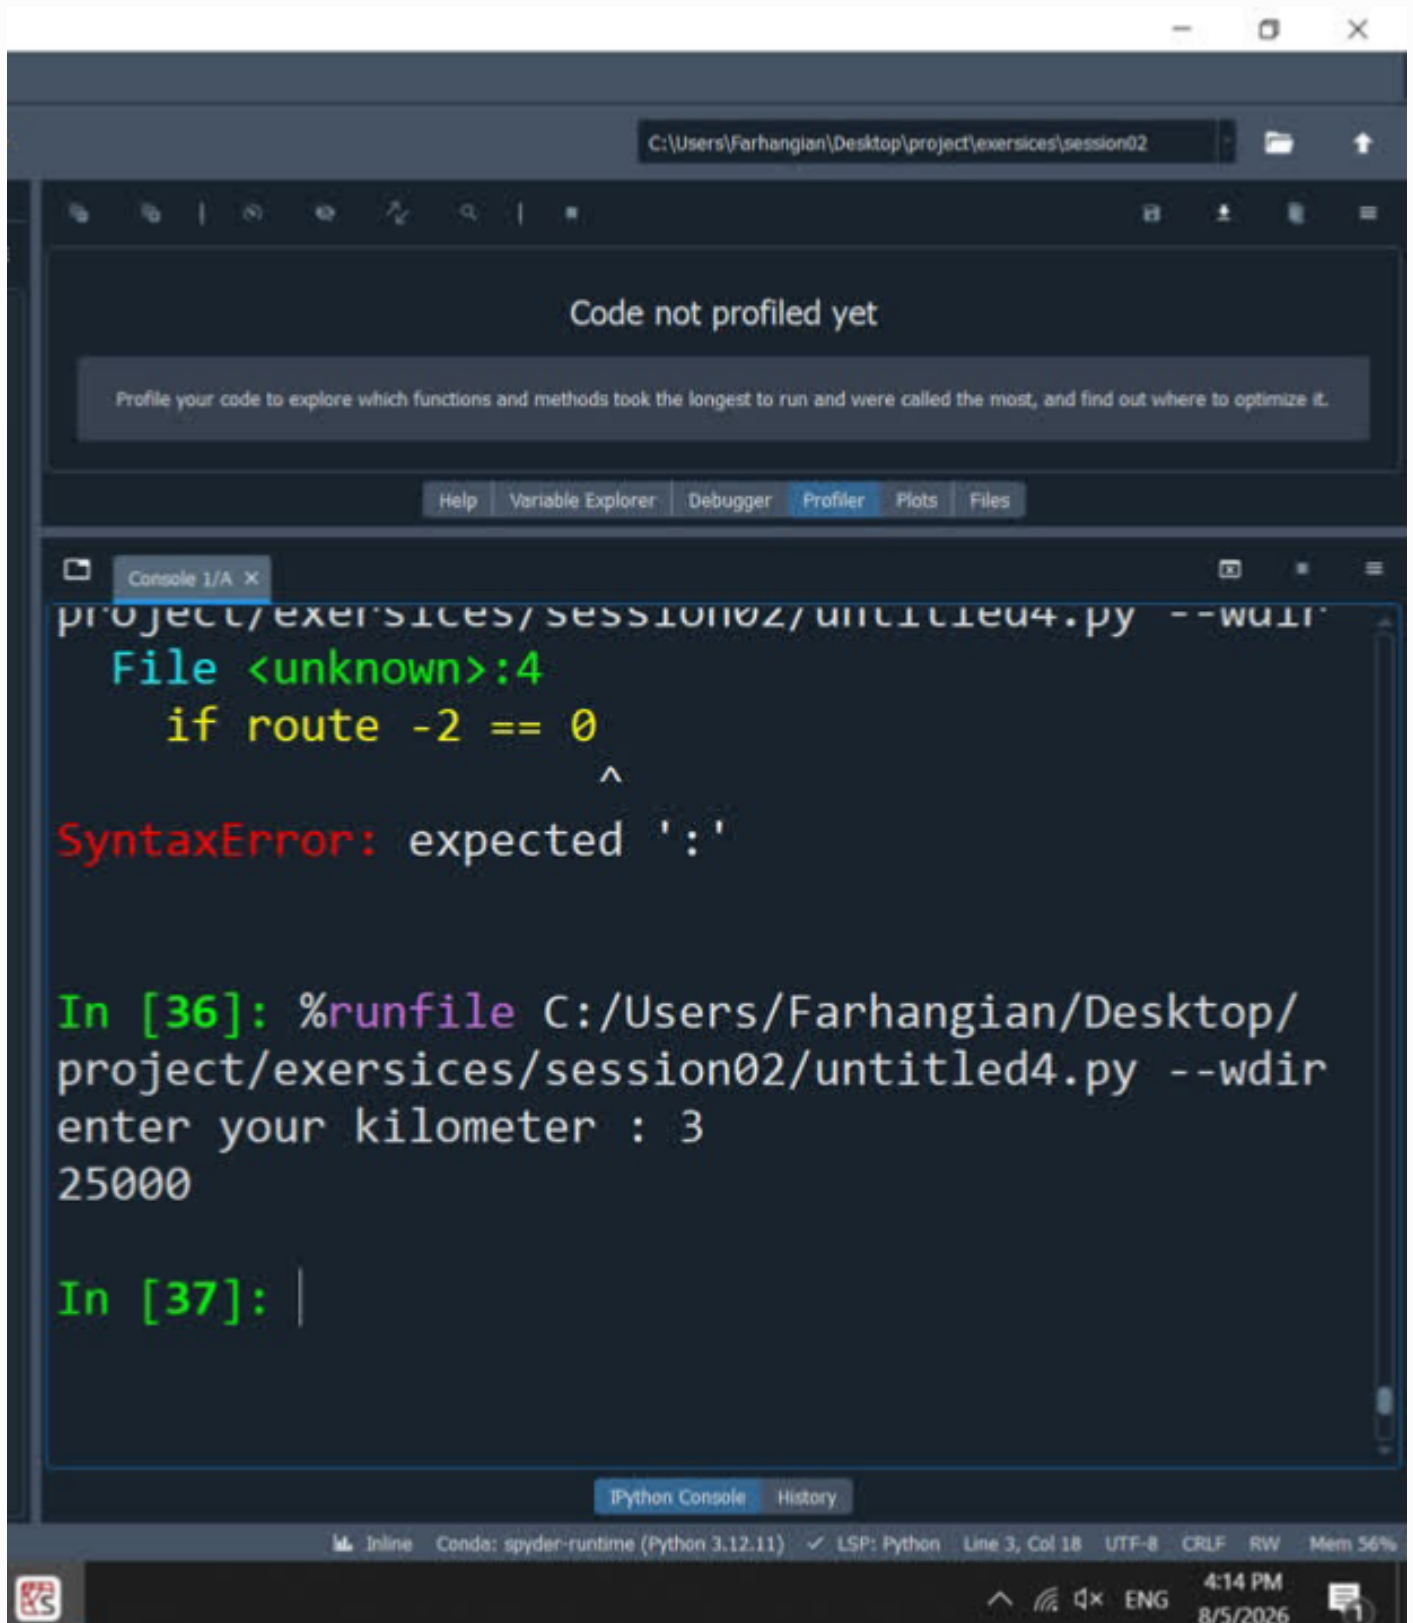

The screenshot displays the Spyder Python IDE interface. At the top, a file explorer shows the path `C:\Users\Farhangian\Desktop\project\exersices\session02`. Below this, a message states "Code not profiled yet" with a subtext: "Profile your code to explore which functions and methods took the longest to run and were called the most, and find out where to optimize it." A toolbar contains buttons for Help, Variable Explorer, Debugger, Profiler, Plots, and Files. The main area is the IPython Console, labeled "Console 1/A", which contains the following text:

```
In [48]: %runfile C:/Users/Farhangian/Desktop/project/
exersices/session02/untitled3.py --wdir
enter your account number : 5022941585961278
8721695851492205

In [49]: |
```

At the bottom of the console, a watermark reads "Activate Windows Go to Settings to activate Windows." The status bar at the very bottom shows "IPython Console History", "Conda: spyder-runtime (Python 3.12.11)", "LSP: Python", "Line 7, Col 69", "UTF-8", "CRLF", "RW", and "Mem 53%". The Windows taskbar at the bottom right shows the time as 4:56 PM on 8/5/2026.

Question 05

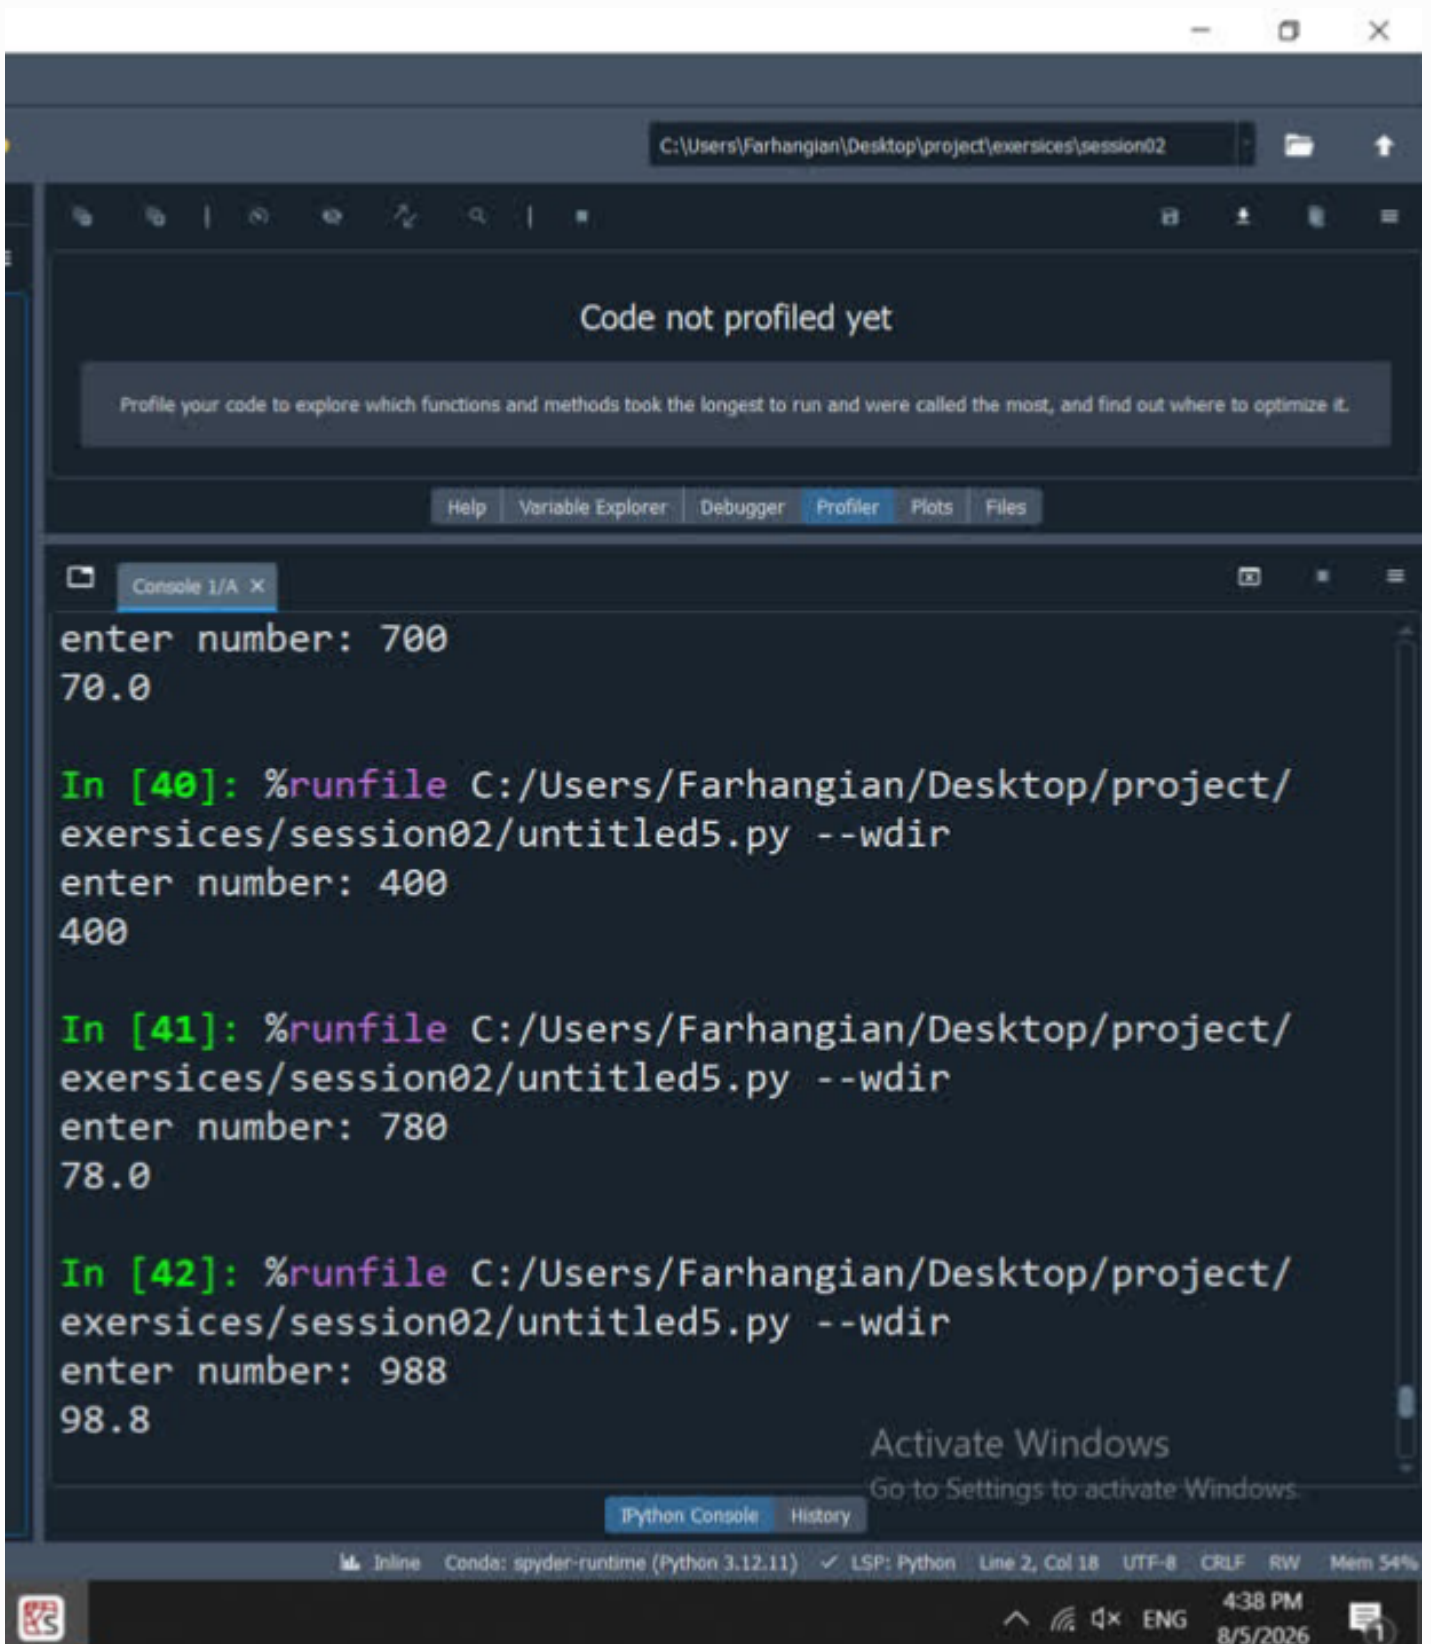

The screenshot shows the Spyder Python IDE interface. The top toolbar includes icons for file operations and a 'Profiler' button. Below the toolbar, a message states 'Code not profiled yet' with a link to learn more about profiling. The main editor area displays a Python script with a syntax error. The error message is 'SyntaxError: expected ':'' at line 4, column 18, pointing to the closing parenthesis of an if statement. The script content is as follows:

```
project/exersices/session02/untitled4.py --wdir=  
File <unknown>:4  
    if route -2 == 0  
        ^  
SyntaxError: expected ':'  
  
In [36]: %runfile C:/Users/Farhangian/Desktop/  
project/exersices/session02/untitled4.py --wdir  
enter your kilometer : 3  
25000  
  
In [37]: |
```

The bottom status bar shows the current session is 'ipython console' with 'History' available. It also displays the Python version (3.12.11), the LSP (Python), the current line and column (Line 3, Col 18), the encoding (UTF-8), the line ending (CRLF), the read/write permissions (RW), and the memory usage (Mem 56%). The system clock shows 4:14 PM on 8/5/2026.

Question 06

The screenshot shows the Spyder Python IDE interface. The top toolbar includes icons for file operations and a menu. Below the toolbar, a message box states "Code not profiled yet" with a subtext: "Profile your code to explore which functions and methods took the longest to run and were called the most, and find out where to optimize it." The main toolbar contains buttons for "Help", "Variable Explorer", "Debugger", "Profiler", "Plots", and "Files". The "Console 1/A" window is active, displaying the following text:

```
enter number: 700
70.0

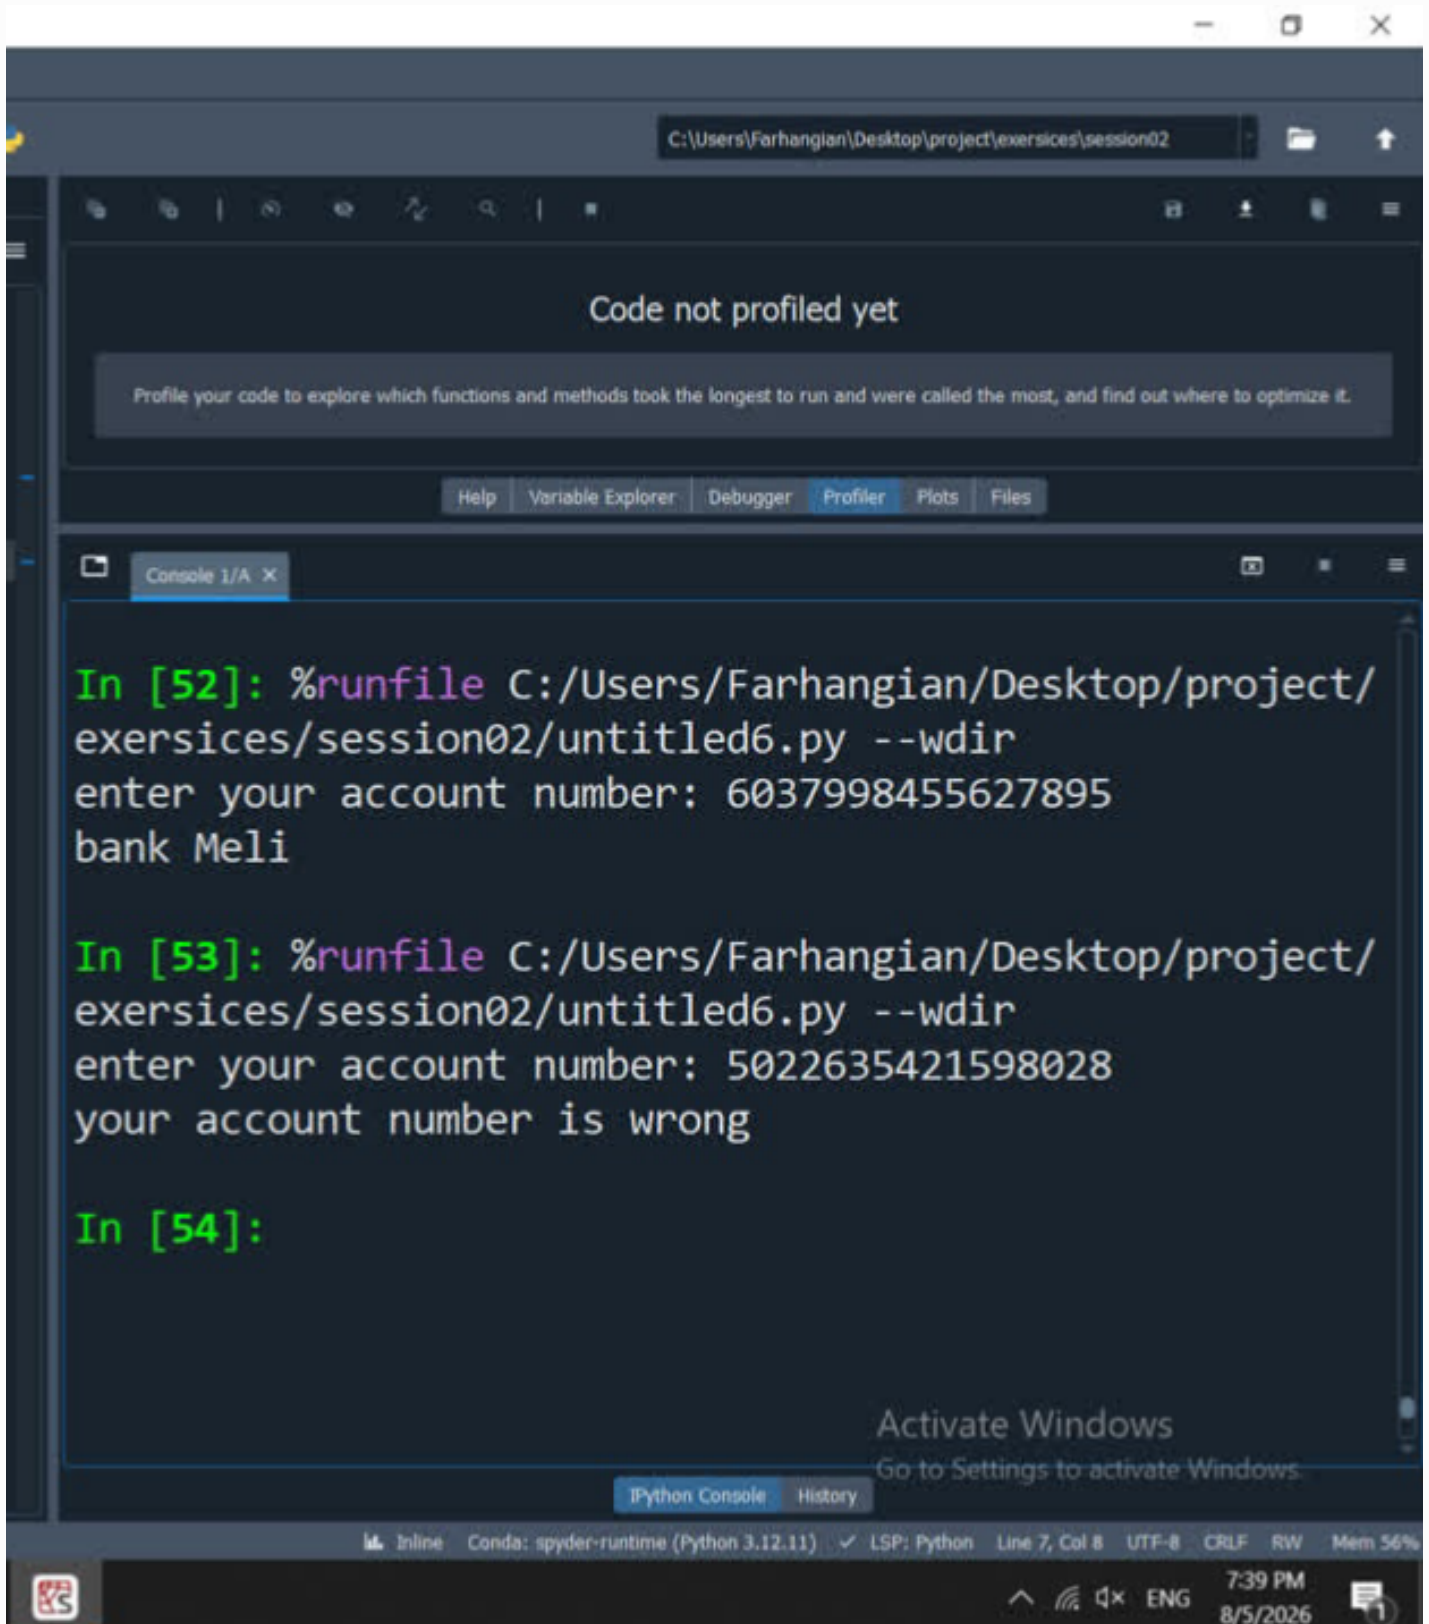

In [40]: %runfile C:/Users/Farhangian/Desktop/project/
exercises/session02/untitled5.py --wdir
enter number: 400
400

In [41]: %runfile C:/Users/Farhangian/Desktop/project/
exercises/session02/untitled5.py --wdir
enter number: 780
78.0

In [42]: %runfile C:/Users/Farhangian/Desktop/project/
exercises/session02/untitled5.py --wdir
enter number: 988
98.8
```

At the bottom of the console, there is a watermark that says "Activate Windows Go to Settings to activate Windows." The status bar at the very bottom shows "IPython Console History", "Conda: spyder-runtime (Python 3.12.11)", "LSP: Python", "Line 2, Col 18", "UTF-8", "CRLF", "RW", and "Mem 54%". The Windows taskbar at the bottom right shows the system clock as "4:38 PM 8/5/2026" and a notification icon.

Question07

The screenshot shows the Spyder Python IDE interface. The top toolbar includes buttons for Help, Variable Explorer, Debugger, Profiler, Plots, and Files. The Profiler tab is currently selected, displaying a message: "Code not profiled yet. Profile your code to explore which functions and methods took the longest to run and were called the most, and find out where to optimize it." Below this, the IPython Console is open, showing the following execution history:

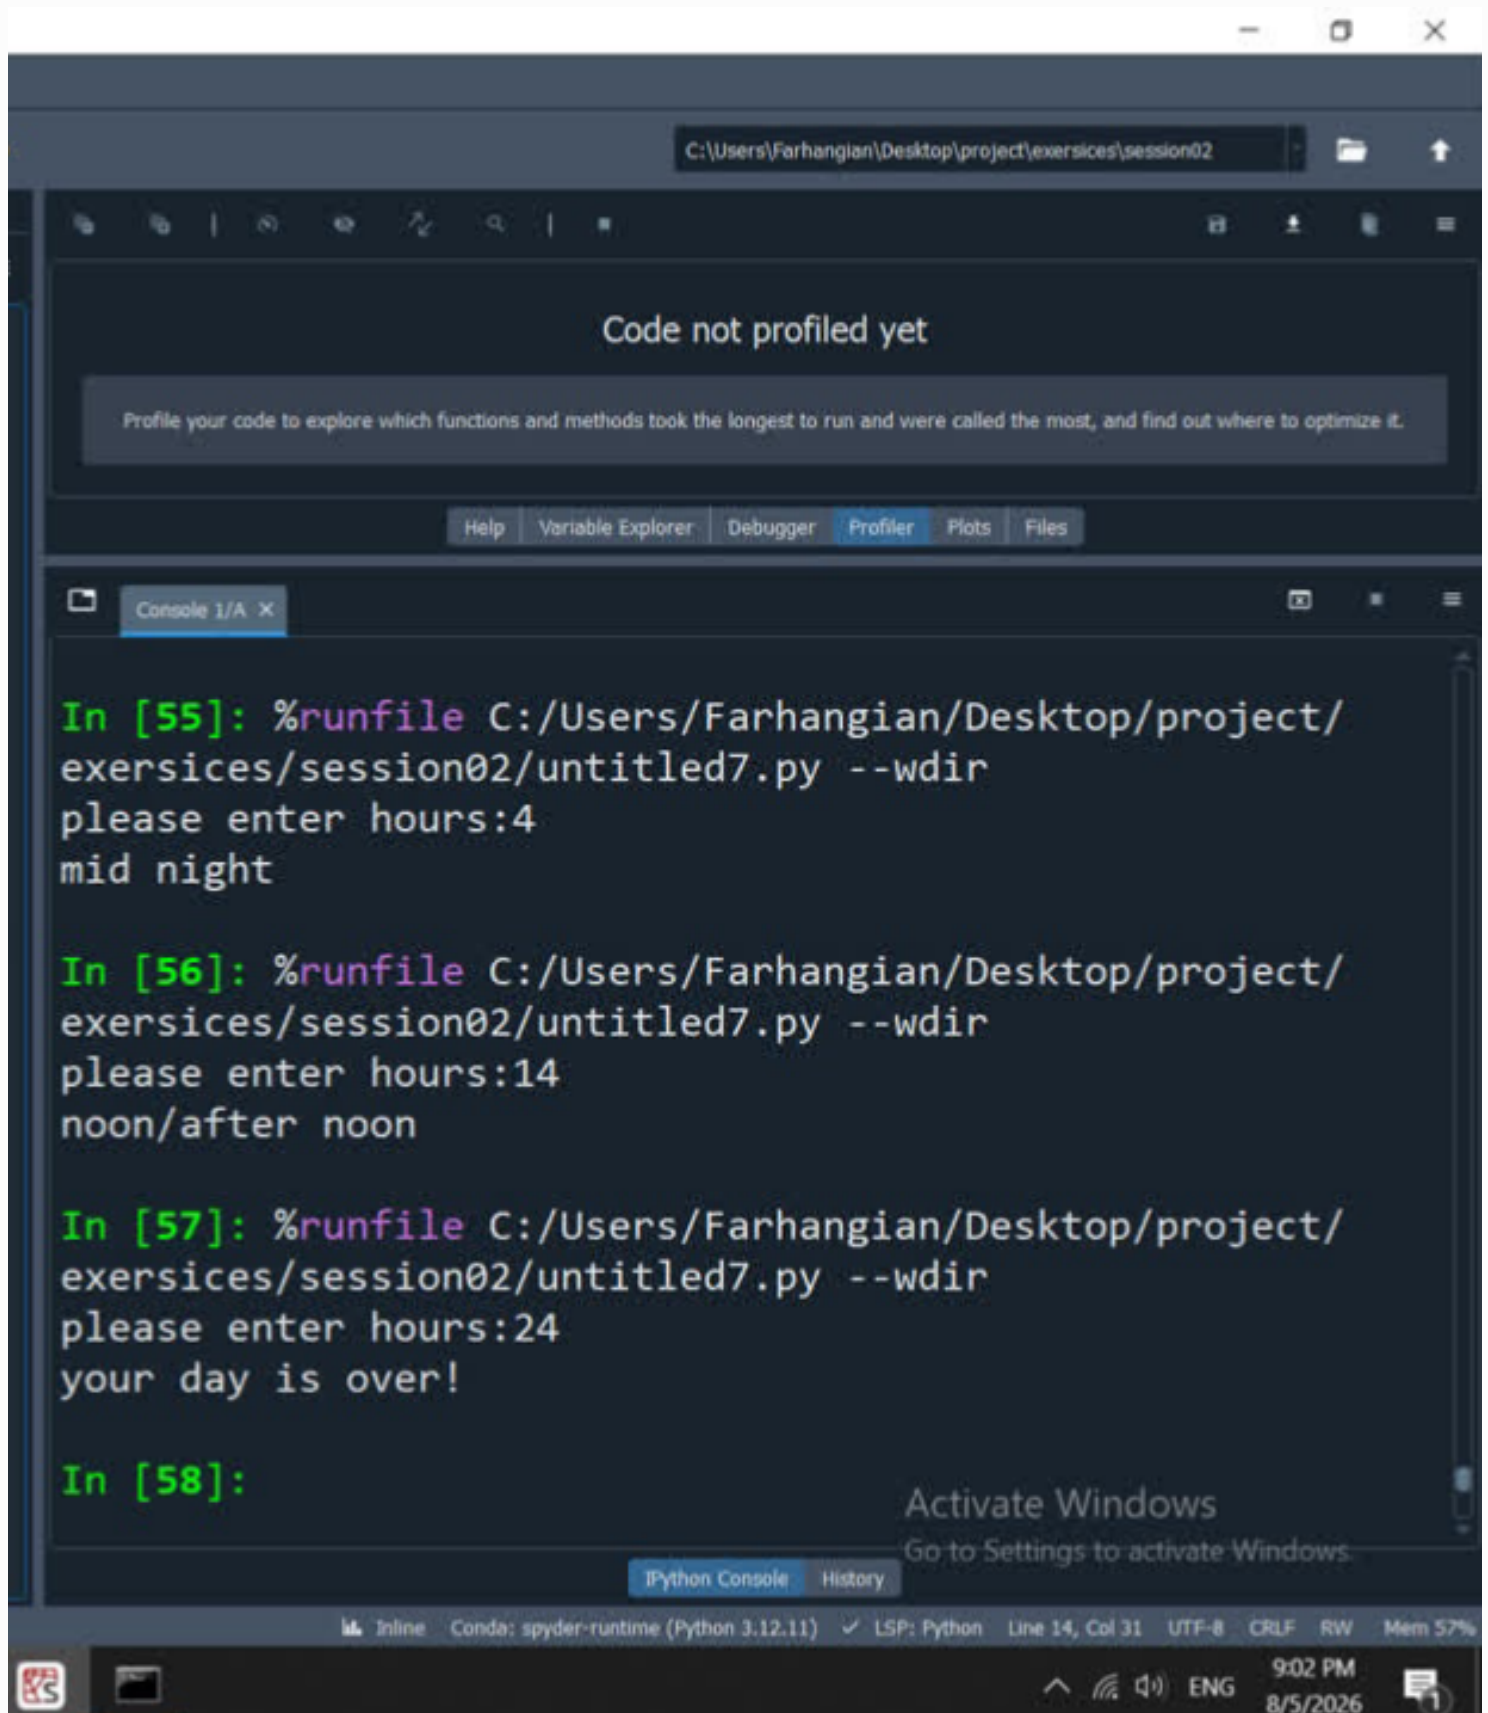

```
In [52]: %runfile C:/Users/Farhangian/Desktop/project/exersices/session02/untitled6.py --wdir
enter your account number: 6037998455627895
bank Meli

In [53]: %runfile C:/Users/Farhangian/Desktop/project/exersices/session02/untitled6.py --wdir
enter your account number: 5022635421598028
your account number is wrong

In [54]:
```

At the bottom of the console, there is a watermark that says "Activate Windows. Go to Settings to activate Windows." The status bar at the very bottom indicates the current environment is "Conda: spyder-runtime (Python 3.12.11)", the editor is in "Inline" mode, and the file is "Line 7, Col 8". The system clock shows "7:39 PM 8/5/2026".

Question 08

The screenshot shows the Spyder Python IDE interface. The top toolbar includes buttons for Help, Variable Explorer, Debugger, Profiler, Plots, and Files. The main editor area displays three Python scripts, each starting with `In [55]: %runfile` followed by the file path `C:/Users/Farhangian/Desktop/project/exersices/session02/untitled7.py --wdir`. The first script prompts for 'hours:4' and 'mid night'. The second script prompts for 'hours:14' and 'noon/after noon'. The third script prompts for 'hours:24' and 'your day is over!'. The bottom console window shows the output of these scripts. The status bar at the bottom indicates the current file is 'untitled7.py' and the interpreter is 'Python 3.12.11'.

```
In [55]: %runfile C:/Users/Farhangian/Desktop/project/
exersices/session02/untitled7.py --wdir
please enter hours:4
mid night

In [56]: %runfile C:/Users/Farhangian/Desktop/project/
exersices/session02/untitled7.py --wdir
please enter hours:14
noon/after noon

In [57]: %runfile C:/Users/Farhangian/Desktop/project/
exersices/session02/untitled7.py --wdir
please enter hours:24
your day is over!

In [58]:
```

Activate Windows
Go to Settings to activate Windows.
