The screenshot shows the Spyder Python IDE interface. At the top, a file explorer shows the path `...ers\Farhangian\Desktop\exersices-Leila-Moharami\session07`. Below this is a toolbar with icons for file operations and a menu. The main area is titled "Code not profiled yet" with a message: "Profile your code to explore which functions and methods took the longest to run and were called the most, and find out where to optimize it." Below this is a tabbed interface with "Help", "Variable Explorer", "Debugger", "Profiler", "Plots", and "Files". The "Console 1/A" tab is active, showing the following code execution:

```
In [11]: %runfile C:/Users/Farhangian/Desktop/

The image shows the Spyder IDE interface with the Profiler tab selected. At the top, a message states "Code not profiled yet" with a subtext: "Profile your code to explore which functions and methods took the longest to run and were called the most, and find out where to optimize it." Below this, a toolbar contains buttons for Help, Variable Explorer, Debugger, Profiler (active), Plots, and Files. The main area displays a "Summary" of transaction data:

The screenshot shows the Spyder Python IDE interface. The top panel displays a message: "Code not profiled yet" with a subtext: "Profile your code to explore which functions and methods took the longest to run and were called the most, and find out where to optimize it." Below this is a toolbar with buttons for Help, Variable Explorer, Debugger, Profiler, Plots, and Files. The bottom panel is the IPython Console, showing the execution of a script. The console output includes a file path, a dictionary assignment, and a system log analysis report. The status bar at the bottom indicates the current file is "main [2]" at "Line 49, Col 5" with "UTF-8" encoding and "CRLF" line endings. The system clock shows "7:14 PM" on "10/2/2026".
